Skills

Frontend : HTML , CSS , Tailwind , React.js

Backend : Node.js , Express.js

DataBase : MongoDB , Mongoose

Tools : Git , Github , Postman

Core : JavaScript , REST API

Language

- English
- Tamil

Projects

Real Time Chat App

- Built a real-time chat system using React (Vite) + Socket.io, enabling instant WebSocket communication and seamless user interaction.
- Implemented WebSocket-based communication for instant message delivery without page refresh.
- Integrated REST APIs and managed application state for seamless user interactions.

Social Media App

- Developed a lightweight social feed application using React (Vite) with a fake REST API powered by npx json-server for rapid frontend development.
- Integrated mock backend APIs to simulate real-world CRUD operations without a live server.
- Designed responsive UI with clean layout, search functionality, and structured navigation.

Task Manager Dashboard

- Built a protected task management dashboard with secure Login & Signup authentication using React, Node.js, Express, and MongoDB.
- Developed full CRUD functionality to create, update, delete, filter, and track tasks with priority and due-date management.

Certifications

Internship (Python) : LiveWire Training Services Pvt . Ltd .

FullStack Dev (MERN) and AI : NoviTech Pvt . Ltd .

Python Programming : Besant Technologies .

Mini Projects

- To Do List
- Rock Paper Scissors
- Colors App
- Notes API

Hobbies :

Playing Cricket

Listening to Music
